Central Region Employment Tour

15 academy members get keen on part time work.

Clontarf Central Region recently held a small part time workers tour of Alice Springs where senior students from the three local academies hopped on a bus together and visited Kmart, Target, Woolworths and KFC.

15 academy members from Centralian Senior College, Yirara College and Centralian Middle School and have all showed interest in gaining part time work while at school.

The morning started off with a visit to Target where we met store manager Talen Crone who is eager to get some lads working for him. Talen showed academy members the store floor, back dock and office space.

Following the retail theme we then drove over to Kmart where manager Kumar Thenappan gave us a tour throughout the store including back of house where a lot of Clontarf lads are already working in the Decant section. This spiked genuine interest amongst the group, as they liked the idea of growing their confidence and skills in a warehouse setting.

Next on the bus tour was Woolworths who have been a host to our Academies for work experience and work site visits before. Woolies are very keen for our Clontarf lads to be part of the team and getting paid to work. This was a great tour with applications submitted by our Centralian Senior members.

We timed our last visit to KFC around lunch time where the fellas were all taught how to make their favourite burger. Sam Edelmanent, store owner showed the group around and then put them to the test in preparing and cooking. They all got his tick of approval and some Centralian Middle School members have shown interest in applying. What a treat!!!
